PROFESSIONAL SUMMARY

I am an IT graduate with a solid foundation in web development and programming. I possess practical knowledge in various programming languages, including Java, C++, C#, and PHP. In addition to my development skills, I am proficient in UNIX environments and have experience with shell scripting, Perl, and Python. My diverse technical skill set allows me to adapt quickly to new challenges and contribute effectively to both individual and collaborative projects. I am passionate about continuous learning and always eager to expand my expertise in the ever-evolving field of technology.
